ONE-DAY WOMEN'S VIBE CODING CONFERENCE

Build in Good Company

Big ideas. Real prototypes. A community to build with.

A hands-on day for women across roles and experience levels. Use AI to turn a manageable idea into a working prototype, with mentors helping you understand, test, and improve what you create.

TIME	SESSION	EXPERIENCE
8:30-9:00 AM	**Breakfast & connections**	Meet fellow attendees and mentors; check laptops and accounts.
9:00-9:20 AM	**Welcome: You belong here**	A short builder story, introductions, and a preview of the day.
9:20-10:00 AM	**Vibe coding, explained**	Live demo: turn a plain-language idea into a working prototype, then test and improve it.
10:00-10:15 AM	**Break**	Coffee and connections.
10:15-10:45 AM	**Choose your idea & team**	Pick one problem and one core feature. Build solo or in teams of two to four.
10:45 AM-12 PM	**Build Lab 1: Start building**	Create your first working version with beginner guidance and mentor support.
12:00-1:00 PM	**Lunch by interest**	Connect around workplace tools, small businesses, creative projects, or community impact.
1:00-1:25 PM	**Build with care**	Check privacy, accessibility, and permissions; learn how to spot AI errors and debug.
1:25-2:35 PM	**Build Lab 2: Make it work**	Finish the core feature, troubleshoot blockers, and simplify the experience.
2:35-2:50 PM	**Break**	Snacks and a screen break.
2:50-3:20 PM	**Test with a real person**	Pair up, watch someone use your prototype, and identify the biggest friction point.
3:20-4:00 PM	**Refine & prepare**	Fix the most important issue and prepare a three-minute demo.
4:00-5:00 PM	**The "Look What I Built" showcase**	Present in small groups, followed by selected main-stage demos. Celebrate progress.
5:00-5:20 PM	**Next steps & closing**	Set a realistic 30-day goal, exchange connections, and celebrate the community.

Leave with: A prototype, feedback from a real user, a short demo, and a 30-day next-step plan.

Make it welcoming: Offer a pre-event setup clinic and clear tool-cost information. Provide mentor stations, a quiet space, accessible facilities, and dietary accommodations; consider childcare assistance and scholarships. Ask before photographing attendees or sharing projects. Reconnect in a build circle 30 days later.
